30 Years Experience; Python, Java, HTML, CSS, Streamlit, Docker Containerization, Google Apps Script.

Cloud & Database Systems

Google Cloud Platform (Cloud Run, Cloud Scheduler, Cloud Build), Firebase Firestore Schema Design & Security Rules.

Generative AI & Automation

Google Gemini Pro, AI Studio, Claude, ElevenLabs, Automated Lead Pipelines (Python Playwright).

Platforms & Tooling

Whop Storefronts, Git/GitHub, VS Code, Notion, Canva, Bear Blog.

Founder & Digital Product Partner

ANDREW SANDSTROM DIGITAL

Scottsdale, AZ | September 2026 – Present

- Partner with content creators, domain experts, and digital brands to build automated, high-margin backend revenue engines.
- Direct end-to-end digital asset production, converting raw notes, video sessions, and proprietary knowledge into polished ebooks, actionable toolkits, and structured guides.
- Architect and launch turnkey Whop storefronts featuring automated fulfillment, payment routing, and gated community access.
- Engineer custom automated scraping and lead qualification pipelines using Python Playwright integrated with Google Cloud Firestore.
- Implement performance-aligned revenue-share agreements, removing financial risk and upfront fees for creator partners.

Senior Software Developer & Technologist

Independent Projects & Consulting | Scottsdale, AZ | Ongoing

Full-Stack Web Apps

Architect and deploy full-stack web applications utilizing Python and Streamlit, containerized with Docker and hosted on Google Cloud Run.

Real-Time Databases

Design and maintain real-time NoSQL databases and granular security configurations using Firebase Firestore.

Business Automation

Automate business operations and cross-platform syncing with custom Google Apps Script webhooks and Google Workspace API integrations.

Technical Publishing

Author technical publications detailing modern software delivery, vibe coding methodologies, and generative AI toolchains.

Education & Credentials

Bachelor of Science in Computer Science

University of Wisconsin–Madison

Generative AI Professional Program

Outskill — October 2026

30 years of hands-on engineering, now accelerated by the most powerful generative AI tools available — ready to build your next revenue engine.
